THE NEW ERA.
Newmarket, Friday, May 13, 1859.

ATTENTION.

The figures at the right of the address on each paper, indicates the indebtedness on the 1st, up to

JANUARY, 1860.
Thus R. Blako 1,50, means that R. Blako owes \$1,500, to pay for the current year up to Jan'y 1860; or thus J. Smith 0, means that J. Smith has paid up. We hope this system will have the effect of lessening the large amount of indebtedness to this office.

General Summary.

The Essay promised this week, delivered by Mr. McPherson before the Teachers' Association at their meeting, has been unavoidably delayed. We will endeavor to give it next week.

Attention is directed to the advertisement calling for the formation of a Clerical Society, to be held this evening. We hope to see a large number of the boys of music, and all friendly to the cultivation of a clerical education, gathered to enlighten the feelings and elevate the soul of man.

The Globe of Wednesday comes out strong for dissolution of the Union between Upper and Lower Canada, and in favor of a Federation of the British Provinces. We have long been contending for this cause, and should have no objection to make this movement one of the test questions at another election.

An advertisement in reference to the forthcoming Exhibition of the Newmarket Mechanics' Institute on the 24th of May, appears elsewhere to-day. We hope every member of the Association will contribute something to make the exhibition interesting and attractive.

It is with pleasure and satisfaction we announce that the member for North York, Joseph Hartman, Esq., M. P. P., is rapidly improving in health, and is able, with care, to attend to ordinary business. This will be good news to every part of this constituency.

We are glad to announce to the business public that all available matter, whether written or printed, having other destination than Toronto, will henceforth be forwarded by the morning post, as well as evening mails; herefore this was not the case. Having occasion to write to the Deputy Post Master General, Mr. Dewe, we called attention to this fact, and under date of May 10th, he writes that he has given instructions to the above effect.

We are glad to learn that the recent decision of the Board of Trustees for this Village, to keep the School open afternoons Saturday, has given very general satisfaction. Some people, of course, did not care whether there was school on Saturday or not; but others felt it a hardship who had to employ additional labor in order to read their children to school.

The Northern R. R. of Canada, we understand, under the able management of its present Superintendent, Mr. G. L. Grant, is doing an excellent business, for the time of year. The Company, too, has so far repaired the road as to remove all apprehension of danger between this place and Toronto. During the present summer, we have no doubt the Road will be put in good repair the whole route.

The Faculty Treasury of Sabbath Readings, introduced by Rev. Dr. A. G. Greenway, and published by James Ross, 38, St. George's, Gresham, Agent for Canada—Mr. James Campbell, Toronto. This large monthly periodical, part 2d, has been received from the Toronto Agent, and a splendid work it is, well calculated to serve the place of a Sabbath School Teacher's Assistant. The articles are all of a elevating Christian character, and calculated to elevate and enlighten the mind. Price 12½ cents, monthly.

To-morrow the Reeve will issue a proclamation, calling upon the inhabitants of this Village, to celebrate Her Majesty's Birth Day; we hope, therefore, the citizens will take the water up and make it a day of rejoicing. We are aware that many look upon these displays as bombastic—but in our opinion there is something beyond a mere display. This is the time for a part of a great nation, and the annual celebration of the Birth Day of our Sovereign will give other countries, now watching our progress and movements, to understand we are thoroughly satisfied with our laws and institutions, and that our Queen reigns in the hearts of her people. A public meeting should take place in the Court House, once to make more complete arrangements.

We have been requested to state that the Report of the Sabbath School Convention, held in Newmarket some time ago, embracing the names of Delegates and Ministers attending; also, the entire minutes, and a large part of the discussions are now ready for delivery to subscribers and friends. Parties who handed over their subscriptions, are requested to do so at once, and the work will be forwarded upon return of post.

The Council then took up Mr. Cook's By-law to define the duties of Assessor and Collector. The By-law passed through its various stages and became Law.

A desultory conversation then followed regarding the celebration of Her Majesty's Birth Day, when it was.

Moved by Mr. Cook, seconded by Mr. Smith, that the Reeve do issue his Proclamation, calling upon the inhabitants to observe Her Majesty's Birth Day as a Public Holiday.

Mr. Sutherland enquired whether it would be prudent, now that the old weight scales were so completely useless, for the Corporation to purchase a new one. If such an investment had proven profitable, to a company, he could not see why it would not be advantageous.

Reference to our advertising columns, will be observed that Messrs Simpson and Trent are determined to drive all before them. Officers may always observe one fact, that their adventitious largely lies in doing a bad business, and hence will be able to sell with less profit and make more, than the mere drudge and drudge can exist. (we can't say this.) and justly announces the place of his habitation, by dubbing his name in lamp-

black on a shingle, and is afraid to tell the public what goods he has stowed away on his shelves. If our friends in the country, are desirous of saving money, and to purchase their goods cheap, we would advise them to take a glance over our advertising columns, and locate some of the establishments there announced.

The Board of Common School Trustees had a meeting last week, to consider plans and determine upon what improvements were necessary to be made to the present School House, in order to make more accommodation. Mr. Rogers was invisible; we have since learned, however, he was unwell—the other members resembled the shuffling and opening of a pack of cards—they met, they parted, but arrived at no conclusion, and waded just as near deciding what should be done before the meeting was over. Some members of the Board did not cast a snap of the finger for the public mind—they were as helpless id; others thought the money belonged to the public and that that public should be consulted. Some considered the present building a perfect model of a School House, and to make the slightest alteration would mar its beauty and render that splendid edifice altogether useless; while others thought if a large inconsiderate, awkward ban of a plan, neither suited for one or two teachers. During the evening, compliments, of a left-handed character, were passed between royal members of the Board; and finally concluded to adjourn, with the understanding that each member should turn architect before the next meeting and bring down plans for the approval of the Board.

SPECIAL ADVERTISEMENT.—Tenders will be received by the Corporation of Newmarket, for the re-laying of Planks on the Bridge on Water Street, on or before a serious accident takes place. The contractors will be expected to enter into heavy bonds for the faithful performance of the work, as the job is considered a very extensive undertaking. Apply to the Clerk for view of the plans and specifications.

DITTO, DITTO.—The Corporation of the Board of Common School Trustees, in order to relieve themselves of their present dilemma, will give a Premium of 12½ cts. for the best plan of a School House, suitable to the requirements of the Village.—Cost not to exceed \$1000; to be so drawn as to be attached to the present building and calculated to make an appearance. Plans to be sent, under seal, to the Secretary, on or before the next meeting. A draft on the Town Pump, for the premium money, will be duly honored.

Newmarket Council.

Pursuant to notice the Council opened as a Court of Revision and Appeal. All the members present.

The Reeve in the chair.

Rev. Mr. Brown appealed against being assessed for the Reserve Lands in his possession.

After hearing the objection, the Court adjourned for two weeks in order to obtain legal advice.

COUNCIL MEETING.

The Council then organized for the transaction of general business.

Minutes of last meeting read and approved.

Mr. Smith inquired of the Clerk, if he had received a copy of the Constable's Assistant, for the use of the Municipality, from the Clerk of the County Council?

The Clerk answered, he had not; and was afterwards instructed to procure a copy.

The By-law heretofore in force, providing against accidental fires, on motion of Mr. Sutherland, seconded by Mr. Cook, was referred to the Committee on By-laws to make certain amendments.

Mr. Cook, from the Road and Bridge Committee, brought up their fourth report, which was received.

This Report stated the Committee had accepted Mr. J. Gordon and Mr. McCormick's tenders—part each—for Lumber, at \$6 per 1000 ft. It recommended that the Clerk be instructed to advertise for tenders for laying the sidewalks; and also recommended the employment of Mr. Coryell, under the supervision of the Road and Bridge Committee, to do the grading.

Mr. Smith enquired whether it would not be well to let the grading cut by contract, likewise.

Mr. Cook said, the grading was of that description that it was difficult to tender for.

Mr. Davison said, he was quite in favor of the Report. If let by contract, the dirt will be thrown in the road, and then Mr. Coryell, or some one else, will have to be employed to remove it, whereas by the present arrangement it would be carried at once to the localities where it is needed.

Mr. Sutherland said, last year's experience had taught him, that for such work as grading, where it was difficult to estimate the work, there was little use to put it out by tender. If they did do so, the work would be slighted, and the Corporation, in the end, be the losers.

Mr. Smith said he was quite satisfied with the explanations.

On motion of Mr. Cook, seconded by Mr. Smith, the Report was adopted.

On motion of Mr. Smith seconded by Mr. Sutherland, the Treasurer was instructed to pay the Poll Clerk, engaged for the election on the disposition of the Reserve Money, the sum of \$150cts.

The Council then took up Mr. Cook's By-law to define the duties of Assessor and Collector. The By-law passed through its various stages and became Law.

A desultory conversation then followed regarding the celebration of Her Majesty's Birth Day, when it was.

Moved by Mr. Cook, seconded by Mr. Smith, that the Reeve do issue his Proclamation, calling upon the inhabitants to observe Her Majesty's Birth Day as a Public Holiday.

Mr. Sutherland enquired whether it would be prudent, now that the old weight scales were so completely useless, for the Corporation to purchase a new one. If such an investment had proven profitable, to a company, he could not see why it would not be advantageous.

to the 'Corporation.' The price would be about \$130 or \$150.

After some little desultory conversation, the members agreed to take the matter into further consideration at next meeting, and then adjourned.

Time, 10:25 p.m.

[We are glad the Council have taken the initiative towards celebrating the Queen's Birth Day. We would now propose the calling of a public meeting to appoint a committee to make the necessary arrangements, &c. &c.—Ed. Era.]

That Correspondence.

We waited somewhat impatiently, from the time the Leader called upon the Globe for the correspondence between Messrs. Brown, Drummond and Laberge, on what the former journal termed the "formal deposition" of the senior member for Toronto as their Upper Canada standard-bearer. In the Globe of last week we find that correspondence, and it is with pleasure we note the fact that Mr. Brown remained true and firm to the principle of religious freedom, and that he had not been swayed by the influence of the Ministry, or by the Ministerial journals, and the assurance and tone of their writings, led us to apprehend that Mr. Brown had been overzealous to obtain the election of a High Church member to the Senate of Canada, and that thereby he had not been strictly true to this section of the Province; but the publication of the correspondence referred to must forcibly impress every unprejudiced mind with the conviction, that it was his consistency in adhering to the principle of religious freedom, and that thereby he had not failed to alarm your fears of the insidious approaches of the enemy; as a man of God you have endeavored to touch the heart rather than please the ear. The magnitude of the cause you advocated was never lost in the fulsome display of self; and rhetoric with you was ever subservient to religion, not religion to rhetoric display; whilst you have painted Christianity as an essential something in the sunshine of life, you have also shown us that life's shadows may be dispelled by the same healing efficacy, that

"When in life we're most driven,
And conscience but a burden;
A conscience fixed wit Heaven,
Is a cure and certain anchor."

Our sincerest wish is that you may derive consolation from that fountain to which you have so faithfully pointed others; that your welcome may be as warm, that your ministrations may be as efficient to any new field of labor to which you may be removed, as they have been in the one which you are about to leave.

An occasion like the present is too often made the opportunity for undeserved envy and unmeaning flattery; but we assure you that it is far from us to utter unmerited praise or unfelt regret; and that it is the warm feelings created by old associations, and an intimate acquaintance with you for the past three years that prompts us to bestow upon you some faint token of the personal esteem which your virtues entitle to receive at our hands. We have chosen for that offering a Gold Watch, which will be prized by you more from the circumstances under which you receive it, than for the taste, skill, or excellence which mark the golden gift; and when the hand of time, which it typifies, shall have worked off your days and hours on the great dial of life, may it then be transmitted as an heirloom in your family; and the simple inscription,

PRESENTED TO THE REV. G. MCITCHIE,
BY HIS FRIENDS AT LLOYDTOWN,

will save its history and this occasion from the common oblivion that awaits all friendship.

We also wish you to convey our warmest respects to your estimable wife, and may both you and her be long spared to merit and receive the warm gratulations of friends; and the sincere good wishes of those amongst whom your lot may be cast.

Rest assured, that wherever you go, our sympathies will go with you; and whether your life be one of sham-hope or shadow, we will not readily forget the pleasing past nor the auspicious present.

we have naturally sustained the loss to the other, we have been unable to discover so much as any disparity between the religion which you preach and the religion which you practice.

Your counsel has admonished the erring; your prayer has comforted the afflicted; in fine, you have carried into the common ranks of life the apostolic injunction "to be instant in season and out of season."

We have learned to look upon you more as the friend of our firesides, as the companion of our way and our way, as the man of God who

has a personal interest in his mission, than as the cold unbending minister, who knows no duties save those which one day out of seven imposes.
